Add Scan Functionality Here

Pages: Channel list  
Contact  
Home Page  
Profile  
Settings

- ← Global Display of indicators
  - = Signal strength
  - 🔋 = Battery life
- ← Link to channel list
- ← Swim lane that user can side scroll through their favorite channels
- ← Displaying the current channel and zone
  - 🔒 = secure / 🔓 = unsecure
- ← Lines will move like sound waves to show that signal is being received or sent
- Can see profile picture and name of the person currently speaking → this is a link to see their contact info and profile
- ← This would take user to page that shows past conversations for playback
- Emergency Alert (Toggle on/off)
- Notifications of Alerts (Emergency, weather, Etc.)
- ← Fixed Menu - Global
